LIST OF PARTS		
No.	Quantity	Description
A	2 pcs	Swing frame 1
B	2 pcs	Swing frame 2
C	2 pcs	Trays
D	2 pcs	Support frame
E	2 pcs	Support rod
F	4 pcs	Small support rod
G	10 pcs	ST4X16 Screws
H	4 pcs	Button
I	4 pcs	M4x6 Screws

STEP 1 - Determine size requirements

Determine the size requirements of the cabinet according to Figure (1)

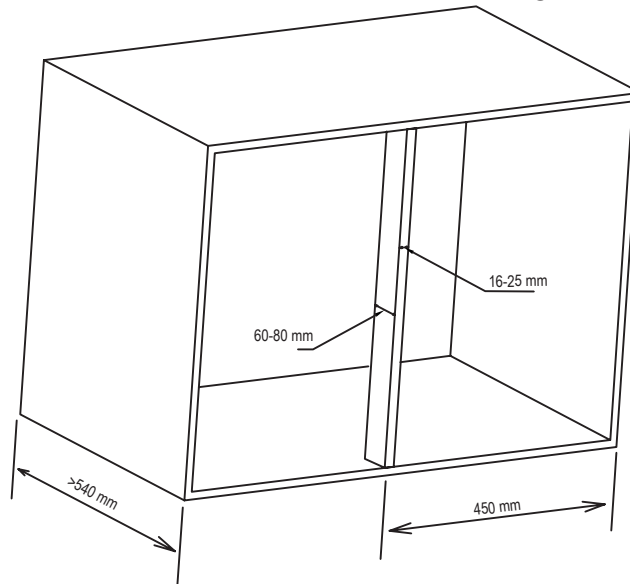

Figure (1)

unit = mm

STEP 2 - Install support frame

Align the support frame (D) according to Figure 2, install them on the side of the cabinet and the inner side of the middle wooden board. Make sure they are vertical, and fix them with ST4X16 Screws (G).

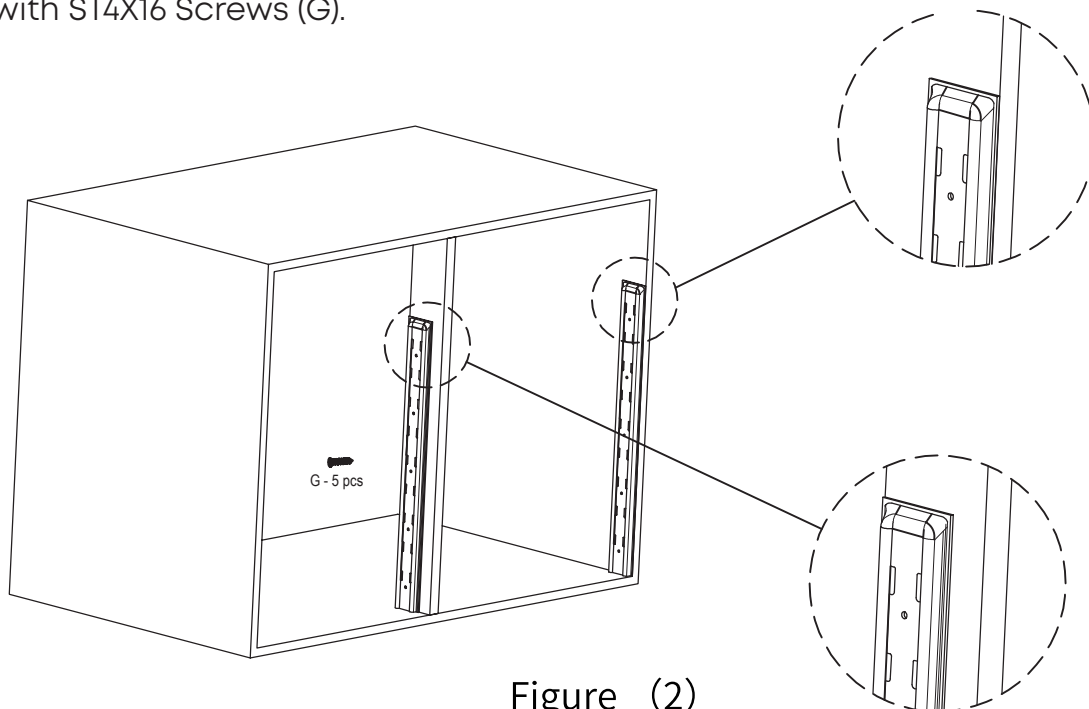

Figure (2)

STEP 3 - Install swing frames

Install swing frame 1 (A) and swing frame (2) according to Figure 3 to ensure that the swing frame remains level, fix it with M4X6 screws (I), and then install support rod (E).

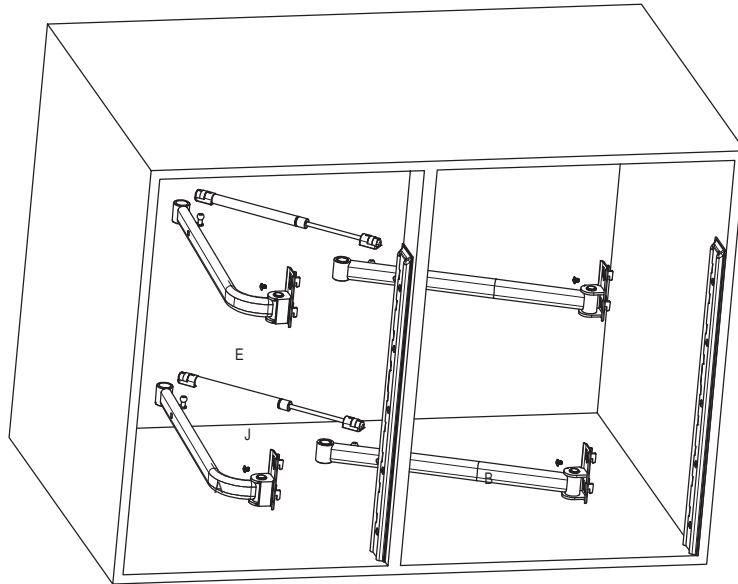

Figure (3)

STEP 4 - Install trays

Pull the swing frame out of the cabinet according to Figure 4, install the trays (C), and then install small support rods (F) in the appropriate position, paying attention to the small support rods.

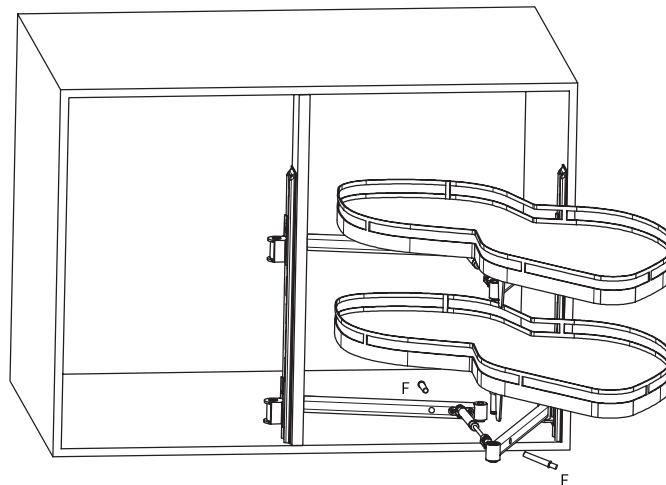

Figure (4)

STEP 5 - Complete installation

Install buttons (H) according to Figure 5, and the installation is complete.
